# INTRODUCTION

This application functioning is clearly indicative as it's name suggests Language Translator app. This is going to change English language into 56 other languages, as per choice. It will not only be saving time in learning new languages but also be saving man power and efficient working time. This application has two screens:-

1. Home screen
  2. Translate screen
- 

# APP SCREENS:

## WORKING:

Screen one has a proceed button ,clicking it will direct one to translating screen.

Translating screen has two text fields and a button

Text field one needs an input where one has to type in English language.

Text field two consists of output which will be translating the input text in totality.

Finally the button named “Translate” will do the above mentioned process.

# ADVANTAGES :

- 1.It acts as an interpreter for about 56 languages.
- 2.It saves time in learning new languages.
- 3.Better communication in multilingual countries like India.
- 4.Easy to use.
- 5.Easy to carry.
